

## The "Silent Smith" Operator never wants to change.

It is when she has to use an ordinary type-writer, even for a few minutes, that she really appreciates the difference. The noise is a shock and she wonders how she ever got along with it before. She is anxious to return to her "Silent Smith" and never to change.

This wonderful machine has all the conveniences needed, including variable line spacer and decimal tabulator; is ball bearing throughout and then—silence of operation.

Read more about it in our new Illustrated Catalog of Number 8 which we will send you for the asking.

We manufacture and sell a complete line of Silent (8-7-6-3) and Standard (6-5-4-3) Models.

## CITY ATTORNEY WILL FORMER RESIDENTS OF NOT ADVISE PAYING KANSAS AT A OF WARRANTS BANQUET

Captain Edmund T. Hulaniski, city attorney, said today, in reply to an inquiry, that the \$137,000 worth of 1915 city warrants, issued during the Fell administration, and now held by the Commercial National, the Pingree National bank and others, will not be paid with money borrowed by the city, on his advice.

He said he was fully convinced that a suit against the former commissioners and their bondsmen, if brought by the warrant-holders, would win a judgment for the plaintiffs for the entire amount.

Since the city has no prospect of a surplus, and no tax redemption money is in sight, said the city attorney, there are only two ways for the payment of the warrants, to-wit: A suit against the three former commissioners who, in his opinion, legally are responsible for the payment of the \$137,000, or a popular election to give the voters a chance to say whether they desire to pay the warrants.

The warrants are now drawing six percent interest. Captain Hulaniski and other city officials intimate their belief that these warrants will be held until next fall when the question of payment will probably become a political issue.

## "Thinness to Plumpness!"

Offers Great Reward to Thin, Anaemic, Bloodless Folks.

Says Hypo-Nuclene Tablets Increase Weight Steadily—and Proves It.

A Philadelphia physician writes: "Having had occasion to observe the marked effect of Hypo-Nuclene Tablets on one of my patients, I would be grateful for all information and samples for clinical purposes."

The patient wrote: "Having been changed from terrible thinness to a lovely plumpness, right under the eyes of my skeptical physician, I told him that Hypo-Nuclene Tablets did it, and now he is deeply interested in your little tablets."

The process of increasing nutrition is intricate, but the results are well-nigh certain. A salient extract from the yolk of eggs combined with hypophosphites, iron and simple vegetable tonics, when taken with the meals produce astounding changes, in nutritive processes and red blood with flesh-forming qualities soon bring the weight so much desired by thin, bloodless, anaemic people, young or old. One or two packages will prove it for anyone. Sold by druggists, 90 cents, or direct from the laboratory of The Blackburn Products Co., Dayton, Ohio.

## White Sale

Our embroidery, muslin underwear, white goods, brassiere and Corset sale will be continued through this week.

Last & Thomas

shot in the left forearm while gathering coal in a scuttle at his home, 803 Park street, last evening.

Mystery shrouds the shooting. According to the police, it has all the earmarks of a fiction love story transformed into a tale of real life in which two youths seek the hands of a girl that both love.

The girl is Miss Florence Roylance of 926 Pierpont avenue. Following the shooting the police were notified and Hughes was conveyed to the emergency hospital. Dr. W. S. Keyting examined the wound and extracted a .22-caliber rifle shot. The youth was able to leave the hospital after being detained for about thirty minutes.

When interviewed at the hospital Hughes said that as he was picking up the scuttle he felt pain and simultaneously heard the report of a shot. The next thing he knew was that his arm was bleeding from the wound. He said that he was in the basement and that a board which had covered the window frame had been removed. He thought that the person who did the shooting might have removed the board.

Patrolman W. L. Payne, who investigated the affair, found no tracks in the snow outside of the window to the basement and he thought that Hughes received a spent shot. In his opinion, a person engaged in target practice in the neighborhood might have accidentally shot Hughes.

Hughes was asked if he had a rival in love. He was reticent to disclose anything regarding his affection for Miss Roylance, but finally did so. The girl later appeared at the hospital and she also was questioned. She declared that it might have been a certain youth whom both she and Hughes knew, but she did not think that he or anyone else would resort to firearms.

Meanwhile the police are investigating to discover if it was a case of a rival in love seeking revenge, or if the shooting was the result of an accident.

Hughes lives with his mother and sisters. His father, David Hughes, is at present in Logan. The family came from Liverpool, England, about ten years ago.

## SAGE TEA BEAUTIFIES AND DARKENS HAIR

Don't Stay Gray! It Darkens  
So Naturally that No-  
body can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually.

Says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

## MODERN WOODMEN OF AMERICA

An excellent musical program and lecture on the same has been arranged for Wednesday night, January 31. All Modern Woodmen invited.

## TROOP K IS TO BE GIVEN INSPECTION

Colonel McDonald of the regular army will inspect troop K, Ogden's new cavalry unit of the reserve army for use only in national defense, preparatory to formal acceptance of the organization by the war department.

The announcement was made last night by acting city manager, J. R. Ward at the regular weekly drill. Squad leaders in the drill were R. C. Glasemann, R. L. Gideon, J. W. Farley and Vern Salter. Captain Ward directed the troop drill.

Fourteen more members are needed. An effort will be made to enroll them immediately, filling out the required number.

Equipment, including horses, saddles and guns, will be supplied by Major Williams, adjutant-general of the National guard, immediately after the troop is accepted for service.

The Tramways Committee of Glasgow (Scotland) Corporation have adopted a motion that all women in the Tramways Department should be paid the same scale of wages as the men.

Factories yearly pay \$140,943,000 in wages in California.

Highest Award—Panama-Pacific Exposition

## SALARIES OF STATE EMPLOYEES AND CLERKS

Salt Lake, Jan. 30.—At a meeting of the state board of examiners, held yesterday, the appointments and salaries of fifty-six clerks and employees in various departments were approved.

The C. S. Martin Coal company was awarded the contract from February 1, 1917, to the same date next year to furnish coal for use at the state capital. The prices are to be: Mine screen slack, \$3.25 per ton; straight slack, \$3 per ton, and mine dust, \$2.50 per ton. It is understood in each case that 2000 pounds is to be the ton measurement.

The appointments and monthly salaries approved were as follows:

Horticultural department—Louise El dredge, clerk, \$65.66.  
State superintendent of public instruction—E. J. Norton, chief deputy, \$175; Mayme Jorgensen, clerk, \$90; Chloe Nelson, clerk, \$95; Rhea Freeze, clerk, \$80.

Secretary of state's office—Jerrold R. Letcher, deputy, \$2100 per annum; J. W. Tinney, corporation clerk, \$150; Harold Roberts, motor vehicle clerk, \$100; Mrs. J. W. Tinney, stenographer, \$95; Mrs. R. M. Butten, motor vehicle stenographer, \$85; Carolyn S. Williams, stenographer and clerk to the board of examiners, \$125; A. G. Jewkes, motor vehicle clerk, discontinued after February 1, \$125; Mrs. H. G. Hammond, stenographer, discontinued February 1, \$75.

Office of the state auditor—Mark Tuttle, chief deputy, \$75; E. Taft Benson, deputy auditor, public institutions, \$150; Walter A. Day, deputy auditor road work, \$150; E. G. Thomas, deputy auditor counties, \$150; George T. Judd, deputy auditor and accountant, \$150; Silvia Nelson, deputy auditor marks and brands, \$90; Lenore Reid, stenographer, \$65.

Library organizer, Miss Mary E. Downey, \$225.

State capital—J. H. Cook, custodian and engineer, \$150; James Maxwell, chief janitor, \$85; R. N. Ivory, assistant engineer, \$95; J. L. Justice, guide, \$75; Joseph Friedman, guard, \$90; James McFarland, watchman, \$75; J. E. Smith, watchman, \$60; janitors, rate of \$65 per month, Henry Hutton, J. N. Rock, James Natress, John Price, John Varley, William T. Bodine, Herman H. Sundstrum, John Timpon, Karl G. Brandley, Thomas McKean, Joseph A. Fisher and Louis E. Grossen, janitors legislative halls, rate \$65 per month, W. G. Ellis, Eldar C. Warning, Richard Griffiths, Fred Wells, firemen, rate \$75 per month, J. E. Reed, William Catmull, Henry F. Schulthies, elevator operators, rate \$65 per month, John Considine and Gordon K. Knight, janitresses, rate \$45 per month, Mrs. Anna Neve and Mrs. Joseph Monson, telephone operators, Alvin B. Rust, \$40, and Jessie Price, \$40; wall cleaner, Glen Cannon, \$65, and Thomas Smith, watchman, state library, \$50.

State capital—J. H. Cook, custodian and engineer, \$150; James Maxwell, chief janitor, \$85; R. N. Ivory, assistant engineer, \$95; J. L. Justice, guide, \$75; Joseph Friedman, guard, \$90; James McFarland, watchman, \$75; J. E. Smith, watchman, \$60; janitors, rate of \$65 per month, Henry Hutton, J. N. ## JUDGE GUNWELL HAS BEEN RETAINED BY COMMISSION

Salt Lake, Jan. 30.—A most sweeping change in the method of handling cases of juvenile delinquency was put into effect yesterday at the reorganization of the juvenile court commission in the office of Governor Simon Bamberger.

The new commission includes Governor Bamberger, chairman; Francis V. Fitz Gerald, secretary; Dr. E. C. Gowan, state superintendent of public instruction, and Daniel Shields, attorney general.

The first act of the new commission was to terminate immediately the terms of office of all juvenile court judges and probation officers in the state except in the second and third judicial districts. The second district comprises the counties of Morgan, Weber and Davis, and the presiding judge, who, with his probation officers, is undisturbed, is Judge Volney C. Gunnell. The third district comprises Salt Lake, Summit and Tooele counties. The presiding judge is E. J. Milne.

Relieved of Duties.  
All other judges and probation officers are relieved of their duties February 1.

To succeed the juvenile court judges dismissed under the order, the commission appointed the local superintendents of schools in the various districts to do the work formerly done by the judges, and wherever possible the attendance officers of the schools will perform the duties of probation officers.

Compensation for the extra work placed upon the school superintendents and attendance officers will be determined at a later meeting. Entirely aside from the sweeping change, the commission accepted the resignation of Judge O. F. McShane of Beaver county, who resigned some time ago, asking that action be taken at the time of the application. This, however, had never been acted upon. The resignation of Judge McShane yesterday was accepted to go into effect February 1.

In discussing the change at the close of the meeting, Dr. E. C. Gowan, who is especially interested, since the new work falls under the department of public instruction, said:

"Aside from the great financial saving there will be other compensatory gains. The amount of work of the superintendents of the districts will not be materially increased, and in no way can the work be considered an additional burden, because most of the superintendents have in the past in fact been among the best workers in handling juvenile cases requiring attention."

"The superintendents are located right in the districts where the work is to be done. They are on the ground and know everybody. They can, and know they will, handle juvenile cases with efficient care and intelligence."

"I sincerely trust and shall recommend that the superintendents secure the best possible assistants as attendance officers, who shall also be probation officers."

## So the People May Know

The intense weather conditions, both at the mines and in the Salt Lake Valley, have now so moderated that there no longer exists concern over the transportation of fuel. For the information of the public, we give below a resume of the shipments of coal from the Utah mines to and through Salt Lake City during the period of the severest winter weather experienced in many years.

From November 15, 1916, to January 15, 1917  
A PERIOD OF SIXTY DAYS

THERE WERE HAULED INTO AND THROUGH

SALT LAKE CITY  
BY THE

## Denver & Rio Grande Railroad

A TOTAL OF

9975

## CARS OF COAL

(OF A MEAN CAPACITY OF 40 TONS TO THE CAR).

AN AVERAGE OF  
166 CARS, OR 6,640 TONS PER DAY

This includes all coal destined to Salt Lake City, Ogden and to smelters and other industries in the Salt Lake Valley, as well as to connecting railroads.

In addition, during this same sixty-day period there were handled from the mines to Provo for use there and delivery to connecting lines 1,320 cars of coal, making a

GRAND TOTAL OF 11,295 CARS—

AN AVERAGE OF 188 CARS PER DAY

THE CHIEF FUNCTION OF A RAILROAD IS TO TRANSPORT FREIGHT (IN THIS INSTANCE COAL) FROM POINT OF ORIGIN (THE MINES) TO DESTINATION.

THE DENVER & RIO GRANDE HAS NO CONTROL OVER THE DESTINATION.

The Daily Movement of Coal To and Through Salt Lake City during the time there was general complaint of inability to secure deliveries to residences, December 15, 1916, to January 15, 1917, was as follows:

	Cars.	Tons.		Cars.	Tons.
December 15	142	5,680	January 1	153	6,120
December 16	87	3,480	January 2	176	7,040
December 17	173	6,920	January 3	44	1,760
December 18	355	14,200	January 4	278	11,120
December 19	53	2,120	January 5	193	7,720
December 20	141	5,640	January 6	127	5,080
December 21	216	8,640	January 7	128	5,120
December 22	94	3,760	January 8	201	8,040
December 23	219	8,760	January 9	152	6,080
December 24	152	6,080	January 10	104	4,160
December 25	111	4,440	January 11	178	7,120
December 26	49	1,960	January 12	196	7,840
December 27	137	5,480	January 13	169	6,760
December 28	50	2,000	January 14	111	4,440
December 29	121	4,840	January 15	169	6,760
December 30	179	7,160			
December 31	128	5,120			

The above figures show conclusively that the Denver & Rio Grande performed its duties as a public servant and was in no way responsible for the regrettable inconvenience and hardships placed upon the people of Salt Lake City and other points in Utah by reason of the recent coal shortage.

During 24 hours ending at midnight, Jan. 29, 220 cars of coal were handled from the mines to Provo, the smelters, Salt Lake City, Ogden and beyond.

THE DENVER & RIO GRANDE RAILROAD CO.

tion officers. With the right kind of assistance the superintendents are going to handle this all-important work."

## LABOR NOTES.

Organized actors, stage employees and musicians have formed an alliance.

Toronto (Canada) Machinists' Union has a membership of over 1100.

Montreal (Canada) has 128 local unions with a total membership of 10,767.

Skirts are worn abroad for the most part only in those occupations which bring women in touch with the public. In most of the factories and shops the breeches and the railway yards, jumpers and regulation overalls are the approved costume.

Special efforts are now being made to organize the telegraphers on four

great railways—the Great Northern, covering 8,100; Northern Pacific, 6,647; Chicago, Milwaukee & St. Paul, 10,509; and Chicago & Northwestern, 10,175 miles. An effort is also to be made on the Chicago, Rock Island & Pacific railroad.

Canadian Manufacturers' association is securing the names of women able to take the places of men in the province of British Columbia.
